

input

A 7x7 heatmap with a color gradient from dark blue (top-left) to light blue (bottom-right). A red L-shaped line highlights a selection: a vertical line from row 1 to row 4 at column 4, and a horizontal line from column 1 to column 4 at row 4. A red diagonal line runs from the cell at row 4, column 4 to the cell at row 7, column 7.

01	02	03	04	05	06	07
08	09	10	11	12	13	14
15	16	17	18	19	20	21
22	23	24	25	26	27	28
29	30	31	32	33	34	35
36	37	38	39	40	41	42
43	44	45	46	47	48	49

output

A 7x7 heatmap with the same color gradient as the input. Numerical values are overlaid on the cells: 9.5 at row 2, column 2; 20.4 at row 3, column 6; and 36.4 at row 6, column 3. A white L-shaped line highlights a selection: a vertical line from row 1 to row 4 at column 4, and a horizontal line from column 1 to column 4 at row 4. A white diagonal line runs from the cell at row 4, column 4 to the cell at row 7, column 7.
